

PRESS RELEASE

New design-led furniture solutions from Moods

(ref: PJH303 – July 2009)

The new **Eurostyle Designer Gloss Furniture** range is the latest addition to the PJH Group's growing Moods Bathroom Collection. This new "Eurostyle" range is a fusion of the latest trends from across Europe and has been developed to combine design-led looks with practical storage solutions for both the bathroom and cloakroom.

The range of furniture units available has been designed to enhance the overall look of the bathroom with elegant splashes of colour and texture in dark walnut gloss, light walnut gloss and white gloss. The range has also kept practicality in mind with clever use of the internal space of each unit to maximise its capacity and hide away the clutter.

The Eurostyle range includes a choice of units, either floor-standing or wall-mounted, and is available in a variety of dimensions from as slim as 300mm for a Tall Cupboard, as well as a short projection unit at just 250mm in depth (the Cloakroom Wash Stand incl. basin), so perfect for small spaces. In addition the stylish Mirrored Cabinet is not only ideal for storage with 2 internal glass shelves, but the mirror also helps to create the illusion of a larger room.

And larger bathrooms haven't been neglected either, with the spacious 700mm wide wall-mounted Wash Station and 700mm wide floor-standing Wash Stand units, both incorporating an ultra modern basin (also 700mm x 500mm), sitting neatly within the top of the unit.

In addition, high quality finishing touches and attention to detail feature throughout the range, including selling points such as soft-close doors, designer chrome handles, colour coordinated carcasses and internal shelving.

Lucy Humphries, Bathroom Category Director for PJH Group said: "This range has been meticulously designed and is already proving popular with the discerning consumer. Maximising space, striking good looks and a high quality finish have all played key roles in the development of this new range."
