**A new door opens at Moods**

(ref: PJH348 / February 2010)

Moods Bathrooms has launched a new range of shower enclosures, to complement its expanding collection of own-brand Moods bathroom products. The first Moods branded enclosures ever, the competitively priced new range will sit along side Jacuzzi and April shower enclosures in the PJH Group's "Bathroom Collection", offering an ideal combination of 'Good, Better & Best' price points to satisfy all markets.

Launching in mid March, the new Moods shower enclosures are - as expected from the UK's largest distributor - competitively priced and manufactured to exacting standards.

The new range includes Pivot, Bifold, Quadrant and Sliding Door models, and has been designed with quality and safety strongly in mind, with FIRA and CE accreditations as well as a five year guarantee. Built to last, the enclosures have been rigorously tested to ensure optimum performance, featuring 5mm toughened safety glass; a solid aluminium frame; and high endurance seals to stand the test of time.

Ease of installation is key for each enclosure within range, with up to 40mm adjustment for out of true walls and a versatile design that can be installed directly onto floor or tray, as well as in a recess or corner situation via the use of a side panel. All the enclosures are power shower and wet room compatible.

The attention to detail and 'feel good' factor hasn't been overlooked either. Finishing touches such as highly polished silver profiles, fixings neatly hidden by colour coordinated caps, chrome plated glass clamps and handles, cushioned magnetic seals and quick release rollers for easy cleaning, enhance the complete enclosure solution.

In addition, PJH Group continues to work in partnership with Just Trays, and an extended range of shower trays feature in the new PJH Bathroom Collection, chosen for their ability to complement the new Moods enclosures. Additions to this range include the JT40 Fusion shower tray, a new model that is 50% lighter than standard trays, easier to install and more affordable.
